

Websocket を使うために、pom.xml に以下の修正が必要です。

# pom.xmlの中身

```
1 <?xml version="1.0" encoding="UTF-8"?>
2 <project xmlns="http://maven.apache.org/POM/4.0.0" xmlns:xsi="http://www.w3
3 <modelVersion>4.0.0</modelVersion>
4 <groupId>org.apache.flink</groupId>
5 <artifactId>SocketProgram</artifactId>
6 <version>1.8.0</version>
7 <packaging>jar</packaging>
8 <properties>
9   <project.build.sourceEncoding>UTF-8</project.build.sourceEncoding>
10  <maven.compiler.source>21</maven.compiler.source>
11  <maven.compiler.target>21</maven.compiler.target>
12  <exec.mainClass>org.apache.flink.socketprogram.SocketProgram</exec.
13 </properties>
14 <dependencies>
15   <dependency>
16     <groupId>org.java-websocket</groupId>
17     <artifactId>Java-WebSocket</artifactId>
18     <version>1.3.0</version>
19   </dependency>
20 </dependencies>
21 </project>
```

websocketに依存libraryを支えるために、  
pom.xmlに以下のを入れる：

```
<dependency>
  <groupId>org.java-websocket</groupId>
  <artifactId>Java-WebSocket</artifactId>
  <version>1.3.0</version>
</dependency>
```
